Draft Messages to Saigon

Attached are two draft messages to Saigon distributed at this morning's Vietnam Committee meeting. One is the final version of the leverage paper, the other the final version of the "hundred days." The full text of both will be cabled, not pouched as indicated in the documents themselves.

Item on the book for any further Agency comment, which needs to be made telephonically this afternoon. Would you please call me by 1700 if you have any further thoughts you want related to the Department.
